PROFILE

Final-year Software Development student seeking an internship or entry-level role in software development or data analytics. Experienced across the full stack — web, mobile, desktop — as well as data cleaning, exploratory analysis, and predictive modeling in Python. Currently completing a thesis project on an AI-driven e-commerce platform. HSK2-certified (200/200), studying toward HSK4.

EDUCATION

Bachelor of Software Development — Norton University, Phnom Penh (2022 – Present, Final Year)

- **Coursework:** Java, Python, databases, system design, software engineering principles
- **Thesis:** AI-powered e-commerce sentiment analysis platform (team of 4)

App / Web Development Training — TUX Global Institute, Phnom Penh (Ongoing)

- Practical training in modern application and web development tools and workflows

TECHNICAL SKILLS

Software Development	HTML, CSS, JavaScript, Java, C++ (Proficient); Flutter, Dart (Familiar)
Data Analytic	Python(Proficient), pandas, NumPy, scikit-learn (Familiar)
Databases	SQL, MySQL (Proficient); Microsoft Access, MongoDB (Familiar)
Visualization	Power BI (Familiar), matplotlib (used in Iris/Titanic/TMDB projects)
Tools & Dev	Git / GitHub, Jupyter Notebook (Proficient)
Soft Skills	Problem Solving, Collaboration, Attention to Detail (Strong); System Design (Developing)
Languages	Khmer (Native), English (B2), Mandarin (HSK2 · 200/200, HSK4 in progress)

PROJECTS

Cherish Baby Store — Thesis / E-commerce (2026)

Team-built React e-commerce storefront for baby and kids products, deployed live. Contributed to testing, thesis documentation, and feature implementation.

TMDB Movie Data Analysis (2026)

End-to-end analysis of ~4,800 movies: data cleaning, EDA, feature engineering, genre profitability, and revenue prediction using regression models (Python, pandas, scikit-learn).

Supermarket Inventory & Sales System (2025)

Java Swing desktop POS backed by six normalized MySQL tables, with separate Manager/Cashier access and separated UI/data-access layers.

Iris Dataset EDA (2026)

Exploratory analysis and classification on the Iris dataset using pandas, NumPy, matplotlib, and scikit-learn.

Pinterest Mobile Clone (2025)

Static Flutter UI recreating a dark masonry feed, search, notifications, and profile screens.

Mini Mart POS System (2025)

Browser-based POS for product management, checkout, and sales reports (HTML/CSS/JavaScript).

EXPERIENCE

Freelance Web Developer | [Independent](#) 2023–Present • Phnom Penh

- Designed and built a wedding invitation website for a client, including an RSVP form integrated with Google Sheets, a polaroid photo gallery, and a floating music player
- Built a multi-page freelance marketplace web app (React + Vite) as a personal project to practice frontend development
- Communicated with clients to understand requirements and delivered projects with basic documentation

CERTIFICATION

HSK Level 2 Mandarin — CAM-ASEAN Foreign Language School (2024), perfect score 200/200
